

Volontører 2020 – 2021

Alenay, Albina, Katharina & Anna-Luisa

Alenay

Hi! I'm Alenay Bircem and I'm 22 years old. I come from Izmir, Turkey. This summer I graduated from Hacettepe University, department is Child Development and graduated from Anadolu University, department is Sociology. During my education, I did internships with various children in places such as kindergartens, hospitals and special education centers. One of my goals in life is to get to know children from as many different countries and cultures around the world as I can and to be able to evaluate the factors affecting human development and behavior in a broad perspective. In Højboskolen for the next 8 months I attend sports, cooking, art, 0 grade activity lessons and SFO in line with my interests and hobbies. I'm very excited about what I will learn and teach. I'm very happy to be among you!

Albina

I'm Albina, I came from Russia, I'm 27 now. I used to be a teacher in Russia for 2 years, when it was a wonderful gap year travelling in Europe and analyzing my life and career. So, I've decided to use my strengths, which are sustainability teaching and social and emotional learning, practice them and learn from teachers and danish education system here. Next step is getting Master in education or maybe something else, time will show! My hobbies now are running, playing ukulele guitar, drawing, embroidery and knitting during dark danish evenings.

Katharina

Hej, my name is Katharina! I'm 18 years old and I come from a suburban town near Hamburg, Germany. I just graduated school with my Abitur and now I follow my plan of spending a year abroad. My hobbies are playing the mandolin, reading, doing embroidery and knitting, but I'm also interested in languages and science. At Højboskolen, a part from working in the SFO and the canteen, I will participate in German, art, English, cooking and crafting classes. My main goal for my voluntary year are deciding whether working in a school is a suitable career option for me, learning Danish and the danish culture, sharing the European spirit and becoming more independent. I look forward to spending the next eight months in Denmark.

Anna-Luisa

Hej, my name is Anna-Luisa and I am 18 years old. I come from Vorarlberg, which is the west part of Austria next to Switzerland and Germany. After finishing school, I wanted to take a gap year and I am grateful that I have found the perfect solution for that. To know what to do next in my life :) In the next few month, I will help in some German, sports, and English classes as well as the SFO and the canteen.
